

Things to consider more

- 1) The blockchain system we need to identify later...
- 2) Marketing strategy (clear & visible)
 - revenue from?
 - expenditure
- 3) How our low-cost model & low bond width web apps take advantages of?
- 4) Government policy to consider fair & square of equal accessibility of education resource (e.g. verification of student status via email or ID)

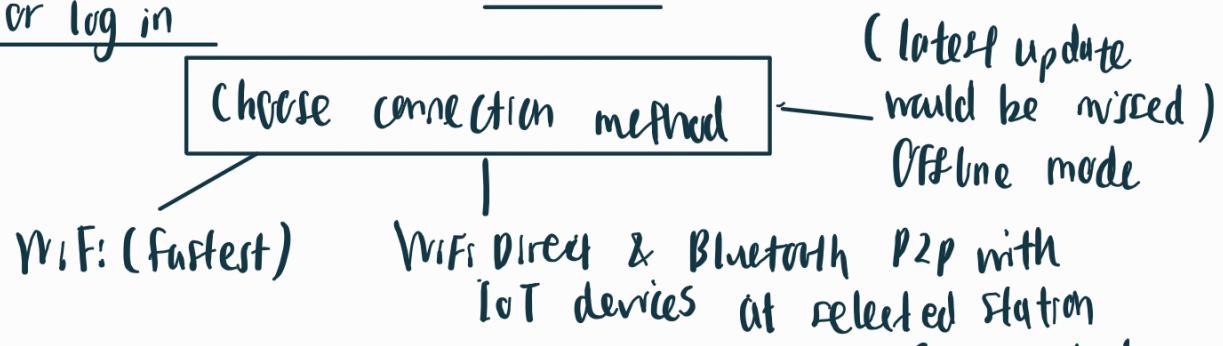

Announcement page

- Syllabus updated
- ✗ - latest announcement from MOE Malaysia
- ✗ - New IoT station built
- ✗ - showcase trending courses, shared notes
